

**Summary of the Application and Requirements of the  
*Public Health and Social Measures linked to vaccination status Direction*  
For Shooting Clubs and Ranges**

*Prepared for Shooters Union Australia, December 2021*

This Direction will be in effect from 5am AEST Friday 17 December 2021.

The Direction applies only to a ***business, activity or undertaking*** in Queensland that is listed in **Schedule 1**. Section 10 of the Direction provides that a ***business, activity or undertaking*** that is not listed in Schedule 1 may otherwise operate as normal, subject in some cases to information collection and physical distancing requirements.

For the purposes of shooting clubs and ranges, the terms of Schedule 1 apply as follows:

### **Outdoor Ranges**

Schedule 1 does not include participation in outdoor sporting activity of any kind. Therefore, for shooting ranges that are outdoor ranges, there is no requirement to either:

- Exclude persons who are not vaccinated; or
- To collect information via the *Check In Qld App*.

Pursuant to section 10 of the Directive, clubs and ranges that are outdoor, may operate as normal.

### **Club Houses**

Club houses fall within Schedule 1B as 'Indoor sports centres and venues, indoor social sporting-based activities, community sports clubs'.

The Direction allows both vaccination and unvaccinated persons to enter a club house at a club or range, but:

- Occupation density of the club house is limited to no more than 1 person per 2 square metres.
- Information must be collected from members and visitors via the *Check In Qld App*.

Note also:

- a) In the case of an outdoor range with a club house, the occupant density and information collection requirements apply only to the club house and not to the outdoor range.
- b) If the club house includes a restaurant, café, or bar, then entry to the club house is subject to the following rules:
  - Only those who are fully vaccinated may enter; and
  - The club must collect information about visitors via the *Check In Qld App*

### **Indoor Ranges**

Indoor ranges fall within Schedule 1B as ‘Indoor sports centres and venues, indoor social sporting-based activities, community sports clubs’.

The Direction allows both vaccinated and unvaccinated persons to enter a club house at a club or range, but:

- Occupation density of the club house is limited to no more than 1 person per 2 square metres.
- Information must be collected from members and visitors via the *Check In Qld App*.

### **Training Activities**

Schedule 1B includes “Universities and other higher education institutions such as Technical and Further Education (TAFE) and Registered Training Organisations (RTO)” as a business or activity. Therefore, where a range or club house is being used for training purposes (eg Courses in Firearms Safety), the requirements applicable to RTOs would apply. These are:

- Contact information must be collected by the *Check In Qld App*;
- Occupant density is limited to no more than 1 person per 2 square metres for areas open to or used by visitors in indoor spaces;
- Both vaccinated and unvaccinated persons are permitted to access.
